April 20, 2017

The 19th Biennial Conference held at the University of Las Vegas, Nevada, October 6-8, 2016, was sponsored by the Anthropology Department, University of Nevada, Las Vegas and chaired by Dr. Barbara Roth. The conference, over thirty-five years since the first, addressed many current research areas and had papers presented by leading southwest archaeologists from agencies and institutions in the United States and Mexico.

This manuscript entitled “Collected Papers from the 19th Biennial Mogollon Archaeology Conference” is composed of a collection of 20 papers from the 19th Biennial Mogollon Archaeology Conference. It has a total of 237 pages in a 2-column 8-1/2 x 11 inch format. The papers are organized roughly corresponding to the conference program general areas: West Mexican Influence in the Mogollon World, General Mogollon, Recent Research in the Gila National Forest, Ceramic Studies, and Specialized Studies.

It is hoped, in the spirit and tradition of the conference, that these papers will serve as a forum for discussion and as an aid for suggesting and developing further research.

This paperback cover volume will be available April 3, 2017 and can be ordered from the publisher Lonnie C. Ludeman (lcludeman@zianet.com). The cost is \$12 for each copy plus \$3 for mailing. If multiple copies are wanted please order at the same time: \$1 extra postage for each additional copy.

Sorry, I am not able to accept credit cards. To order please send a check, made out to Lonnie C. Ludeman, to the following address:

Lonnie C. Ludeman
5085 Rock House Road
Las Cruces, NM 88011

To pick up a copy from me directly with no mailing charge, please call me at (575) 522-1691 or e-mail me at lcludeman@zianet.com to make arrangements for receiving the copies.

The table of contents for the book follows:

Table of Contents

v	Preface
vi	Contributing Authors

1. General Mogollon

3	Preliminary Investigation of Two Boots (AZ CC:4:32 ASM): An Early Mogollon Pithouse Site <i>Lori Barkwill Love</i>
13	Archaeological Survey and Predictive Modeling in the York-Duncan Valley, Southeastern Arizona <i>Mary E. Whisenhunt</i>
23	Salado Period Occupation of the Duncan/York Valley in the Upper Gila River Valley, Arizona <i>Kristin Corl, John R. Roney, Mary E. Whisenhunt, and Robert J. Hard</i>
33	Archaeological Sensitivity Modeling for Cultural Resource Inventory Planning: Human Use of Hanging Valleys in the Pinal Highlands, South-central Arizona <i>Sebastian Chamorro and Cannon S. Daughtrey</i>
49	Agriculture during the Doña Ana Phase Jornada Mogollon <i>Alexander Kurota, Meade Kemrer, and Jonathan Sandor</i>
75	Recent Research at a Jornada Mogollon-Manso Site, Leasburg Dam State Park, New Mexico <i>Robert J. Stokes</i>

2. Recent Research in the Gila National Forest

87	Archaeological Research in the Diamond Creek Locality of the Northern Mimbres Region <i>Fumiyasu Arakawa</i>
97	Ecological Comparisons and Environmental Reconstruction of the Northern Mimbres Region <i>Kailey Martinez and Paul Van Wandelen</i>
105	Unique Architecture of the Northern Mimbres People <i>Candice R. Disque</i>
113	Ceramics in the Northern Mimbres: An Examination of Reserve Phase Corrugated Wares at Several Mimbres Classic Pueblos <i>Garrett Leitermann</i>
127	An Interpretive Mass Analysis of the Lithic Assemblage from Twin Pines Village, New Mexico <i>Paul A. Duran</i>
137	Twin Pines Obsidian: Projectile Points or Ritual Objects? <i>Mary Brown</i>
147	Mimbres Frontier Culture: Results from the South Diamond Creek Excavation Project <i>Trevor E. Lea, Candice R. Disque, and Kevin Conti</i>

3. Ceramic Studies

- 161 The Style and Function of Fillet Rim Vessels
Tammy Stone
- 167 Chupadero Black-On-white: Production and Exchange in The Jornada Mogollon
Leon Natker

4. West Mexican Influence in the Mogollon World

- 181 Imagining Praxis: Making Complexity in the Casas Grandes Region
Jerimy J. Cunningham
- 189 Bioarchaeological Analyses of the Paquime Trophy Skulls
Kyle D. Waller
- 203 The Expansion of the Casas Grandes Regional System into Sonora
Júpiter Martínez Ramírez

5. Specialized Studies

- 211 Provenance Studies through Geochemical Analysis of Obsidian Debitage and Projectile Points from 76 Draw (LA 156980), New Mexico
Heidi Noneman
- 217 2016 Rock Art Recording at Apache Flats, New Mexico
Margaret K. Berrier
- 231 Author Index
